<b>GP-07 Ice Rainbow</b>	<b>PGC-GP07 Ice Rainbow</b>

**Colors shown over SGC-100 Super Jet Black Base mixed 2 Tablespoons/Quart with IC-101, Pearl, Flake, & Powder Binder.**

*PrismFx Glass Pearls(tm) is unique technology where metal oxide layers of varying colors are deposited on prism like glass flakes. These colored flakes produce unmatched sparkle and brilliance with a degree of transparency allowing for deep chromatic colors depending on the base color selected. Use as a midcoat over base or also well suited for a base for Kandy such as our EyeKandy(tm) colors. PrismFx Glass Pearls offer custom painters truly unique effects at a reasonable price. Available in liquid (premixed with our IC-101) or dry form so you can customize your look.*

Due to the complexities of computer, monitor, and printer selections we can not guarantee the colors you see and/or print will accurately represent the final products. In fact, we feel these photo shots don't do these colors justice! It is very difficult to capture the true brilliance of these products on a camera. Try them and you will see for yourself what everyone that has seen them in person is talking about! No guarantee of color match to this card is implied or warranted.
